GET READY FOR A WHOLE NEW TIMING TECHNIQUE!

Fill in the blanks that follow, using the birth-year ephemeris that you rendered per the handy instructions in the Loom vid. We'll do most of the mapping-out together during our meeting. Woo HOO! This is a *great* way to determine the vibes in our lives... and plan for them, as far out in the future as you'd like to go!

Here's the ephemeris for the first few days of my life. Notice I'm using just the information in the **MOON column** to inform the way I fill in the blanks.

The day I was born = July 11th 1970. I've drawn a line UNDER that day. That day gets a ZERO next to it.

My natal Moon is at 18° 1' Libra

LET'S GO DEEPER WITH OUR FUN NEW TIMING TECHNIQUE!

Based off the work we did during our meeting, I've added another level to this worksheet, so you can dig deeper, plan better, and be prepped for next month's discussion about the phases of the moon and what they say about what we were born to do!

Here's the moon phase calendar's snapshot of the day I was born. Note: Just like the ephemeris, it's not based on your exact TIME of birth, so the degrees (and even the sign the moon is in) can appear "off." (It's not; it's just showing the **day**, not the exact time.) For keywords, use the "What Your Birthday Says About You" workbook on the **Aligned Advantage WELCOME** page.

	Thu	Jul 9		Waxing Crescent	 Virgo	Pancreas, small intestine, digestive tract
