- 11:32:53 from Kellye Rowland: dont know what i diiiiiidd before dry shampoo lol
- 11:34:28 from Bettina Kenney: *squeeeee* excitement & stardust!!
- 11:38:12 from Kellye Rowland: dissonance and discord with the jangly sounding one for me
- 11:38:13 from Bettina Kenney: As a musician and singer - LOVE that comparison / analogy
- 11:38:25 from Kellye Rowland: yes bettine same!
- 11:38:31 from Kellye Rowland: bettina
- 11:38:58 from Bettina Kenney: <3 <3 <3
- 11:39:02 from Sarah McLean: harmonious - felt good in my heart/chest. non-harmonious - weird feeling in my gut/stomach.
- 11:39:11 from Bonnie Gillespie (she|her): Very cool, Sarah.
- 11:39:53 from Claire Burns (she/her): loved it!
- 11:41:54 from Rachel Lang (she/her): Trine - dividing chart in three
- 11:42:07 from Rachel Lang (she/her): 120° apart
- 11:42:29 from Rachel Lang (she/her): Natural gifts ... free flow of energy
- 11:42:47 from Rachel Lang (she/her): Trine - "imposter syndrome"
- 11:42:50 from Rachel Lang (she/her): love that!
- 11:43:39 from Bonnie Gillespie (she|her): 60° = sextile
- 11:43:59 from Bonnie Gillespie (she|her): It's like a half-trine, size-wise.
- 11:44:21 from Bonnie Gillespie (she|her): These will be signs that share the same polarity (masculine/feminine, active/receptive, etc.).
- 11:45:19 from Bonnie Gillespie (she|her): When we get the sextile gifts to connect with us, we tend not to take them for granted (the trine, we'll continue to take for granted because we don't have to work for it).
- 11:45:49 from Bonnie Gillespie (she|her): The labels "major" and "minor" are usually due to whether Ptolemy used them.
- 11:46:07 from Bonnie Gillespie (she|her): The 5 Ptolemaic aspects are considered major.
- 11:47:55 from Bonnie Gillespie (she|her): It's like getting to learn "helping verbs" in a new language.
- 11:49:41 from Bonnie Gillespie (she|her): They don't share modality, element, or polarity. They are "in aversion" to one another.
- 11:50:23 from Bonnie Gillespie (she|her): I have one with Saturn.
- 11:50:38 from Kellye Rowland: i have two with saturn
- 11:50:41 from Kellye Rowland: woohoo
- 11:50:42 from Bonnie Gillespie (she|her): The Moon and Saturn.

11:50:45 from Bonnie Gillespie (she|her): Woo HOO indeed!
11:50:45 from Kellye Rowland: yup!
11:51:22 from Kellye Rowland: YASSSS
11:52:07 from Kellye Rowland: lol
11:53:58 from Bonnie Gillespie (she|her): They can finish each other's sentences.
11:54:08 from Bonnie Gillespie (she|her): See 'em a lot in synastry charts.
11:55:32 from Bonnie Gillespie (she|her): Venus starpoint. Love.
11:55:38 from Bonnie Gillespie (she|her): Google Image search that. ^^
11:55:40 from Bonnie Gillespie (she|her): It's gorgeous.
11:55:47 from Bonnie Gillespie (she|her): "Venus flower" too.
11:59:40 from Sarah McLean: YES
12:00:14 from Rachel Lang (she/her): Ha!! Yes. I love this!!
12:01:20 from Kellye Rowland: Like me with yods! I fell down a rabbit hole with the yod last night lol
12:02:25 from Bonnie Gillespie (she|her): See? You've been doing an aspect pattern all along: STELLIUM!
12:03:19 from Bettina Kenney: And that
12:03:45 from Bettina Kenney: Stellium only includes planets and not points, right?
12:03:55 from Bonnie Gillespie (she|her): As Rachel defines it, yes, Bettina.
12:03:57 from Bonnie Gillespie (she|her): Only planets.
12:04:00 from Kellye Rowland: so if a current transiting planet hits the stellium in your chart it's like boom!, in a way?
12:04:02 from Bettina Kenney: Thank you
12:04:02 from Bonnie Gillespie (she|her): 3 or more.
12:05:11 from Rachel Lang (she/her): Cardinal sign - Aries, Cancer, Libra CAPRICORN (Pluto's been there since 2008...)
12:05:31 from Kellye Rowland: so it doesnt count AC, NN, Chiron etc?
12:05:35 from Rachel Lang (she/her): Uranus in Taurus - our fixed signs feel it now. Plus, Saturn was in Aquarius
12:05:50 from Kellye Rowland: gotcha
12:06:20 from Kellye Rowland: yikers! haha
12:06:59 from Kellye Rowland: ohhhhh ok. all my stellium except sun are outers
12:07:48 from Rachel Lang (she/her): Moon in LEO!
12:08:22 from Rachel Lang (she/her): It's a musical day!
12:08:32 from Jill Austin: I'm in the MODE for tension...square
12:08:54 from Kellye Rowland: moon squaring saturn = not super fun lol
12:10:21 from Kellye Rowland: does it matter if the planets in the t-square are inners or outers?

12:10:33 from Bonnie Gillespie (she|her): I use them all, Kellye, for T-Square.
12:10:37 from Kellye Rowland: ok
12:10:48 from Bonnie Gillespie (she|her): And angles/points
12:11:01 from Bonnie Gillespie (she|her): MC, AC, DSC, IC
12:12:15 from Bonnie Gillespie (she|her): I always love identifying these patterns because they explain SO MUCH of our natal setpoints/beliefs.
12:12:37 from Bonnie Gillespie (she|her): It's how we can have very similar planets/placements to other people but the aspect patterns will make them feel different to us.
12:13:06 from Kellye Rowland: this really is like so many LAYERS of info....
12:13:44 from Bonnie Gillespie (she|her): Endurance like a Capricorn.
12:14:36 from Rachel Lang (she/her): Grand trine - all same element. Open flow of information.
12:15:06 from Rachel Lang (she/her): A triangle is one of the oldest sacred symbols of the goddess- the womb-- so, it represents the ability to manifest/birth ideas
12:15:26 from Kellye Rowland: love that
12:16:06 from Rachel Lang (she/her): I love that analogy
12:16:17 from Kellye Rowland: omgosh amazing yes
12:18:24 from Sarah McLean: What are the degrees/orbs with these patterns?
12:18:29 from Bonnie Gillespie (she|her): And it's the TAKING IT OUT INTO THE WORLD that shows the gift of it all.
12:18:48 from Remy O'Brien: I'm 3degrees away from one
12:18:55 from Bonnie Gillespie (she|her): Sarah — 0° to 8° is the range people use for trines.
12:19:22 from Sarah McLean: Cool. Thanks.
12:21:15 from Jill Austin: I have one leg slightly out of element.
12:22:20 from Bonnie Gillespie (she|her): Can these planets SEE one another?
12:22:37 from Bonnie Gillespie (she|her): This is where sitting together with a friend and acting out the positions is very revealing.
12:22:43 from Bonnie Gillespie (she|her): You get a sense of HOW the planets relate.
12:22:48 from Bonnie Gillespie (she|her): Highly recommended!
12:23:53 from Kellye Rowland: ooooh!
12:23:54 from Bonnie Gillespie (she|her): Yay!
12:23:57 from Bonnie Gillespie (she|her): Thanks, Rachel!
12:24:04 from Bonnie Gillespie (she|her): We have a few kites in this class.
12:24:07 from Bettina Kenney: ❤️🥰🙌❤️
12:25:26 from Kellye Rowland: that actually also looks like a 3D triangle, like with the depth...

12:25:36 from Bonnie Gillespie (she|her): So this is the grand trine (120° — element share triangle) + an opposition from the apex to behind the "base" of the grand trine.

12:25:47 from Kellye Rowland: ahhh ok

12:25:49 from Bonnie Gillespie (she|her): That's a kite!

12:26:31 from Bonnie Gillespie (she|her): Pay attention to the TOP of the kite (even though that's at the bottom of this diagram).

12:27:59 from Kellye Rowland: yay yods! i have a yod!

12:28:10 from Rachel Lang (she/her): There is a GIANT bee in my office right now...

12:48:55 from Jean Dougherty: @Jill -- How would you feel if 'someone else' wrote a book making unconventional wisdom tangible/relatable.. would you think, "darn, I 'almost' put that in my book...'????

13:22:29 from Jill Austin: What if Saturn becomes the teacher - here's what this moon feels like etc.

13:24:11 from Jill Austin: Saturn could chart different feelings associated with the moon sign every day.

13:24:28 from Bonnie Gillespie (she|her): Look at Jill doing EXACTLY what her chart says she's here to do.
