

Astrology for Creatives Live Zoom Chat 19 January 2022

- 11:34:51 from Kimberly Logan (She/Her): my sun is totally in a critical degree!
- 11:34:55 from Kimberly Logan (She/Her): 1 degree Aries
- 11:35:17 from Kellye Rowland: My Chiron is Kimberly! 1:21 degrees in Aries
- 11:36:05 from Jill Austin: And North Node is moving into Taurus
- 11:37:02 from Kimberly Logan (She/Her): New band name - I called it! Accidentally Dignified
- 11:37:07 from Kellye Rowland: I read a great and helpful article on the lunar node shift into Taurus/Scorpio axis today, I'll post the link here. Got me really interested in learning more about the next 18 and 1/2 months...!
- 11:37:11 from Kimberly Logan (She/Her): Or maybe my autobiography
- 11:37:11 from Bonnie Gillespie (she|her): Love it, Kimberly.
- 11:37:54 from Kimberly Logan (She/Her): please do Kellye - would love to read it
- 11:38:11 from Kellye Rowland: I keep trying and it won't let me paste it here. hmm...
- 11:38:57 from Kellye Rowland: It's a Medium article by Cleopatra in Vegas called "How the lunar nodes shifting into the taurus/scorpio axis being mellow vs. being intense"
- 11:39:09 from Kimberly Logan (She/Her): ty
- 11:39:39 from Bonnie Gillespie (she|her): I'm "baby woo" about the nodes. 😊
- 11:40:16 from Bonnie Gillespie (she|her): How we learn.
- 11:41:38 from Bonnie Gillespie (she|her): Remember Venus rules Taurus.
- 11:41:43 from Bonnie Gillespie (she|her): Enoughness.
- 11:42:07 from Kellye Rowland: I'm looking forward to the next 18 months for SURE 😊
- 11:42:26 from Bonnie Gillespie (she|her): Revolution time.
- 11:45:05 from Bonnie Gillespie (she|her): And then started his own social network. Very Gemini.
- 11:46:17 from Bonnie Gillespie (she|her): And that's true of all South Node/North Node dynamics.
- 11:46:22 from Bonnie Gillespie (she|her): Getting outside that comfort zone.
- 11:47:17 from Jill Austin: I've been working on what needs to crumble away.
- 11:47:17 from Kimberly Logan (She/Her): My North node is 17 Virgo (I think that means it was in opposition in Gemini for the last bit of time - is that right?)
- 11:48:37 from Amelia Rico: Gemini opposes Sagittarius.
- 11:48:51 from Rachel Lang (she/her): Also, look at the houses the nodes are transiting through in your chart
- 11:49:10 from Rachel Lang (she/her): North and South nodes are always in opposition! They're an axis line -180 degrees away
- 11:49:11 from Kimberly Logan (She/Her): @Amelia - yup; got my glyphs mixed up!

11:49:16 from Rachel Lang (she/her): And follow Chart Harmony!!!!!!

11:49:54 from Sarah McLean: So if we're in a nodal square... chart harmony?

11:50:23 from Kimberly Logan (She/Her): in Chicago I'm able to blame the weather, but it's real bad.

11:50:28 from Bettina Kenney (she/her): Jaaaaa, same here! zZ

11:51:16 from Remy O'Brien: Kimberly when I lived in Chicago I blamed the weather too. Can't anymore in LA

11:51:45 from Amelia Rico: Sarah, Chart Harmony is Bonnie's new IG for astrology.

11:52:08 from Sarah McLean: yes, Amelia. I was asking is that would I should focus on for my nodal square.

11:55:32 from Bonnie Gillespie (she|her): I put in the outer ring the "current" transits and advanced it to November.

11:56:35 from Bonnie Gillespie (she|her): All the FIXED signs will feel these nodal transits through July 2023.

11:57:09 from Amelia Rico: So, did North Node just leave Aries? If so, that means it was squaring my North Node in Cancer?

11:57:27 from Kellye Rowland: Amelia is your NN in Aries too?

11:57:38 from Amelia Rico: No, it's in Cancer.

11:57:41 from Kellye Rowland: ok

11:57:43 from Rachel Lang (she/her): The eclipses also follow along the nodal axis line - the eclipses this year are taurus and scorpio

11:57:58 from Rachel Lang (she/her): April and May, October and November

11:58:28 from Amelia Rico: I was wondering if that meant the Aries NN was squaring my Cancer NN the last 18 months.

11:58:33 from Kellye Rowland: So the square means it's the two thing at a 90 degree angle?

11:58:45 from Amelia Rico: Yes.

11:58:50 from Kellye Rowland: thnx

11:59:06 from Bettina Kenney (she/her): Always good to Take nodes 😊

11:59:45 from Kimberly Logan (She/Her): 😊

11:59:58 from Sarah McLean: Yeah, I'm feeling those nudges for sure.

12:04:01 from Kellye Rowland: So when you say pay attention when those things are at those degrees, do you mean when ANY planet at that degree, or just when the specific planet your birth chart is in those degrees...?

12:04:55 from Rachel Lang (she/her): You pay attention to those degrees to see when transits and eclipses happen at those degrees.

12:05:33 from Kellye Rowland: So any transit then, not just natal transits ok

- 12:07:45 from Rachel Lang (she/her): When transiting planets aspect natal planets, things happen in your life. That's the "weather!" Events occur
- 12:07:59 from Rachel Lang (she/her): They show us the energies present
- 12:08:19 from Rachel Lang (she/her): The type of aspect shows the type of events.
- 12:08:42 from Rachel Lang (she/her): Conjunctions - aha moments, taking initiative on things we want, sudden shifts
- 12:08:52 from Rachel Lang (she/her): Sextile and trine = Things flow, gifts received
- 12:08:59 from Rachel Lang (she/her): Squares - inner tension, challenges
- 12:09:18 from Rachel Lang (she/her): Oppositions - can be conflicts (inner or outer)
- 12:09:49 from Kimberly Logan (She/Her): practical question - I can't find a PC version of Astro Gold. Any other non-Apple users who have found a good substitute?
- 12:10:09 from Rachel Lang (she/her): WinStar or Solar Fire are good!
- 12:10:15 from Rachel Lang (she/her): I like time passages for a basic program
- 12:10:22 from Kimberly Logan (She/Her): thx!
- 12:10:23 from Rachel Lang (she/her): Solar fire is the expert one
- 12:10:45 from Rachel Lang (she/her): If you don't want to invest in a program, time nomad is excellent - it's an app
- 12:11:05 from Rachel Lang (she/her): They have a widget for the daily transits!
- 12:11:21 from Kimberly Logan (She/Her): 😊
- 12:15:01 from Sarah McLean: Amelia, feeling lots of pressure and push to up level, as Rachel described and definitely with the Taurus/Scorpio themes. There's a constant voice in my head telling me I'm worth more. So, prep for that pressure!
- 12:15:02 from Bonnie Gillespie (she|her): LOVE
- 12:15:12 from Bonnie Gillespie (she|her): Spinach = North Node conjunctions!
- 12:15:23 from Bonnie Gillespie (she|her): Drain = South Node conjunctions (in natal chart).
- 12:16:29 from Bonnie Gillespie (she|her): Planet vs. "placement" (like MC; since that's not a planet)
- 12:16:48 from Bonnie Gillespie (she|her): "Orb" = the number of degrees we consider.
- 12:17:10 from Bonnie Gillespie (she|her): How much padding we use.
- 12:17:25 from Kellye Rowland: My NN is in the 1st house (Aries)! Woo lol
- 12:18:11 from Bonnie Gillespie (she|her): 8-10° orb = Rachel's natal buffer zone.
- 12:18:16 from Bonnie Gillespie (she|her): I use a tighter one.
- 12:18:23 from Bonnie Gillespie (she|her): And also a much looser one.
- 12:18:37 from Bonnie Gillespie (she|her): I'll clarify verbally shortly. ;)
- 12:20:49 from Bonnie Gillespie (she|her): Transits = tighter orbs.
- 12:20:54 from Bonnie Gillespie (she|her): 2-3°

12:23:20 from Bonnie Gillespie (she|her): Outer planets TRANSITING the inner NATAL planets = bigger influence on our lives.

12:23:48 from Bonnie Gillespie (she|her): So, a Pluto transiting natal Moon situation = you'll really feel that.

12:24:21 from Kellye Rowland: Yes I have a ton of cardinal placements

12:24:31 from Kimberly Logan (She/Her): Pluto is transiting my MC

12:24:40 from Bonnie Gillespie (she|her): Kimberly, what kind of transit?

12:24:47 from Bonnie Gillespie (she|her): Opposing? Squaring? Conjunct?

12:25:04 from Kimberly Logan (She/Her): nope - mis-thought that.

12:25:12 from Sarah McLean: still feeling my pluto square pluto but way less intense than when it was direct

12:25:19 from Kellye Rowland: So like micro vs. macro maybe?

12:25:53 from Sarah McLean: Amelia, in case you missed it, I commented at 15mins past the hour in regards to the nodal square and what I'm feeling.

12:26:33 from Bonnie Gillespie (she|her): Moon, Mercury, Venus, Sun, Mars = day to day.

12:26:47 from Bonnie Gillespie (she|her): Jupiter, Saturn = bigger but not long-long term.

12:26:53 from Amelia Rico: Thank you, Sarah, I think I was typing my question at that point and may have missed it.

12:26:58 from Bonnie Gillespie (she|her): Neptune, Uranus, Pluto = long-long term.

12:37:38 from Bonnie Gillespie (she|her): See the transiting NN as a flashlight.

12:37:56 from Bonnie Gillespie (she|her): And it's lighting up the house that sign is in, in your chart.

12:39:07 from Sarah McLean: Going back in time and holy moly is Rachel's comment about the transiting Nodes in your chart is accurate.

12:39:43 from Bonnie Gillespie (she|her): YES! I wrote that one down too, Sarah!

12:39:47 from Bonnie Gillespie (she|her): Gonna check some dates.

12:40:33 from Bonnie Gillespie (she|her): See?

12:40:37 from Bonnie Gillespie (she|her): Don't even try. ;)

12:40:39 from Bonnie Gillespie (she|her): LOL

12:45:48 from Amelia Rico: Yes! lol I have a Sag rising husband too and he cannot make the thing, but he has ALL the ideas and fire that help ME make the thing. :D

12:48:30 from Bonnie Gillespie (she|her): Aspects we generally look at are conjunct, oppose, square. Then trine, sextile. There are others beyond that, but they're less impactful.

12:53:45 from Sarah McLean: you had me at Highlights magazine

12:54:10 from Kellye Rowland: And me at garanimals lol

12:54:16 from Bonnie Gillespie (she|her): Yes.

12:54:26 from Bonnie Gillespie (she|her): I've gone to Assertive/Receptive.

12:56:36 from Bonnie Gillespie (she|her): Diurnal/Nocturnal.

13:04:56 from Kellye Rowland: I ne3ed to have this layered over and over again!

13:04:59 from Kellye Rowland: 😊

13:05:21 from Bonnie Gillespie (she|her): I asked the same thing, Jill!!

13:05:41 from Sarah McLean: I thought the same thing initially Jill! It's a very Rachel background.
