

# Your Natal Moon Phase

## ZOOMING OUT SO WE CAN ZOOM IN AGAIN

Fill in the blanks that follow, using the birth-year ephemeris that you rendered per the handy instructions in the Loom vid. Again, we'll do most of the mapping-out together during our meeting. Woo HOO! We're gonna get clear on not just your moves THROUGH the phases by Secondary Progression, but also your natal setpoint for navigating your life.

Here's the ephemeris for Cancer season, the year I was born. (See Loom vid for more.) I'm highlighting with the lines and circles below FOUR things: 1. When the Sun entered Cancer, 2. When the Cancer New Moon happened (that's when the Moon met the Sun in Cancer), 3. Where the Moon was on the day I was born, 4. When the Sun left Cancer.

The Cancer New Moon, 1970.

My natal Moon is at 18° 1' Libra.

The Sun entered Cancer June 22, 1970.

The Sun entered Leo July 20, 1970.

# Moon Phases

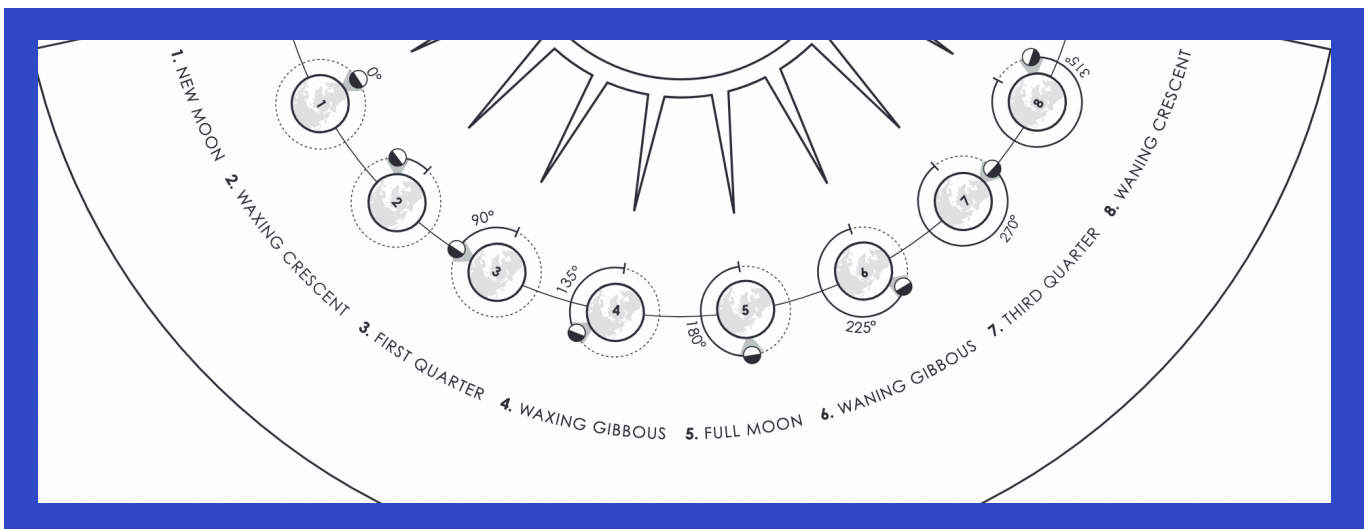

## IDENTIFYING MOON PHASES WITHOUT AN APP

Based off the previous page, fill in the following blanks.

I was born during \_\_\_\_\_ [Sun sign] season. The New Moon in \_\_\_\_\_ [Sun sign] took place \_\_\_\_\_ [before or after] the day I was born.

Bonus points: My Sun sign is a \_\_\_\_\_ [modality] sign. My Moon sign is a \_\_\_\_\_ [modality] sign. [Remember: The modalities are Cardinal, Fixed, and Mutable. Revisit "**What Your Birthday Says About You**" -- that workbook is on the **Aligned Advantage** welcome page for review -- if you need it.]

There are 8 key phases of the Moon. (Some astrologers identify more; we're gonna stick with the core 8.) Each phase represents a specific relationship (ASPECT) between the Sun and the Moon. Here are their relationships!

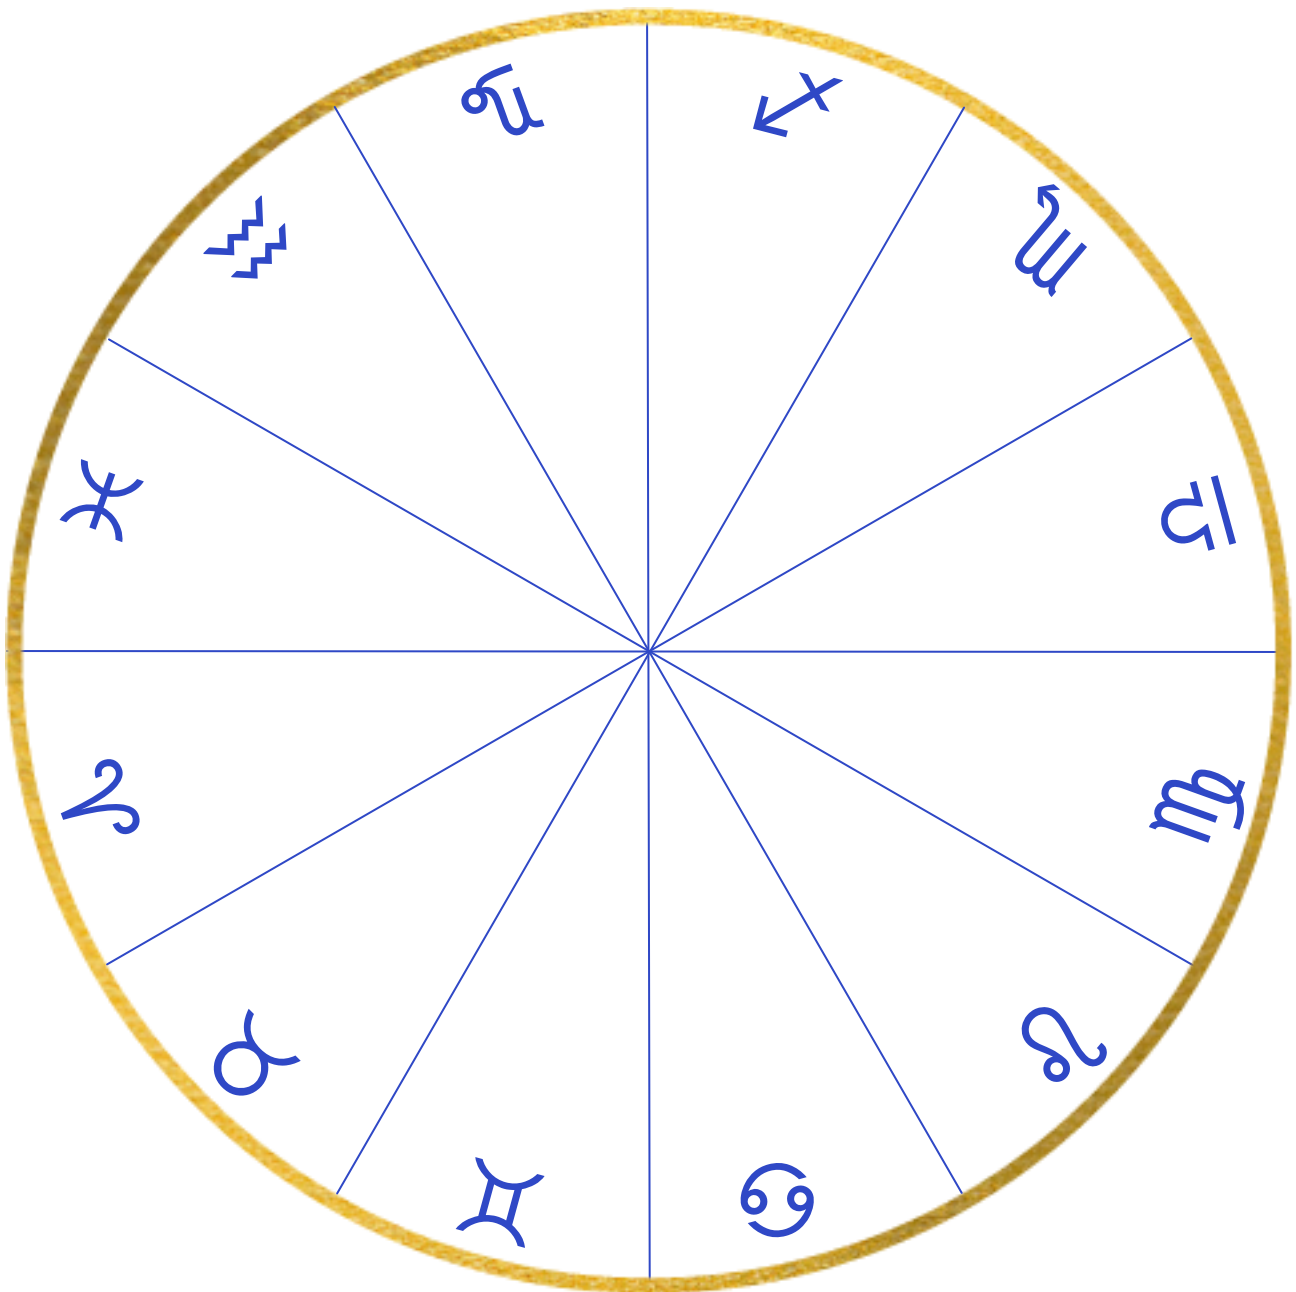

New Moon	Waxing Crescent	First Quarter Moon	Waxing Gibbous	Full Moon	Disseminating	Last Quarter Moon	Balsamic
♌	∟	◻	◻	♍	◻	◻	∟
Conjunct	Octile	Square	Trioctile	Oppose	Trioctile	Square	Octile
Sun & Moon in the same sign.		Sun & Moon in the same modality.		Sun & Moon in opposite signs.		Sun & Moon in the same modality.	

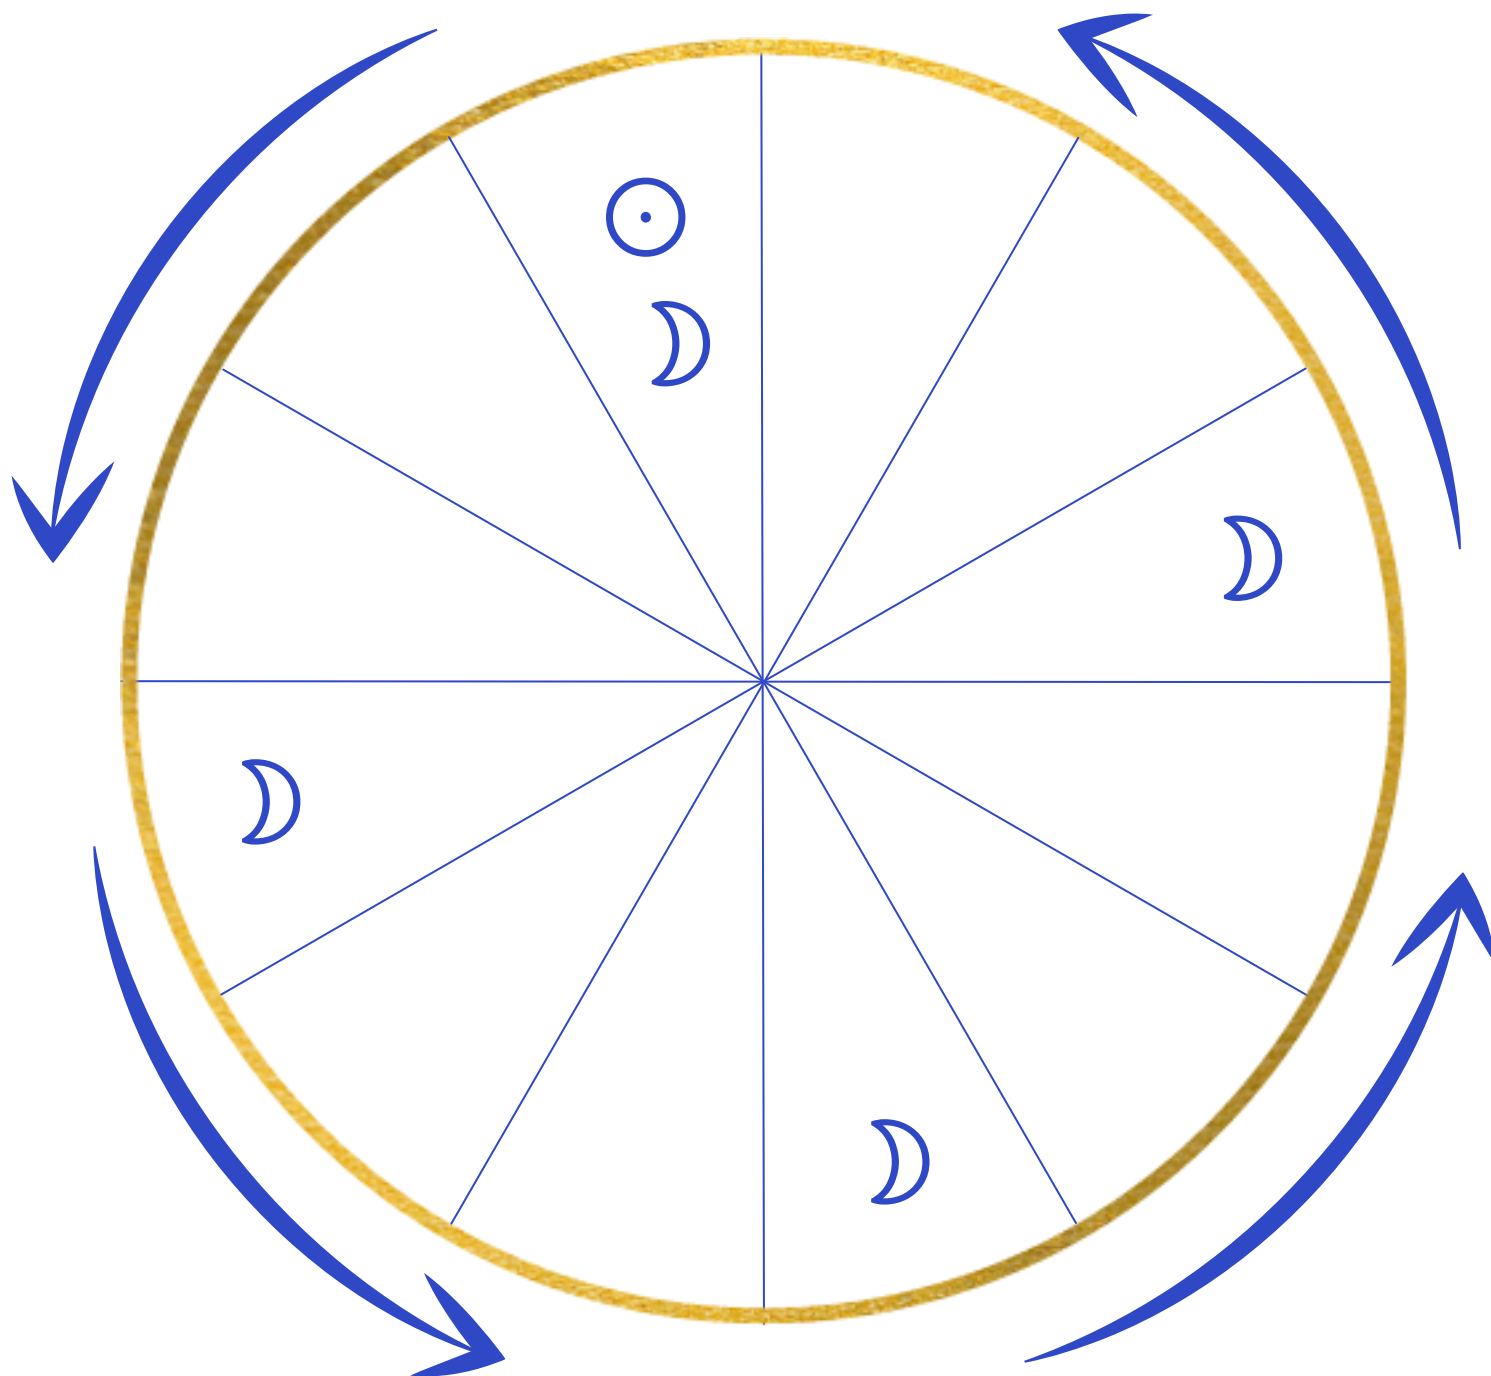

# Natal Moon Phase Map

Here's a chartwheel WITHOUT the houses numbered. You can rotate this page to get your Rising sign (ASC, AC, Ascendant) to the 1st House position. If you need a refresher on where the 1st House is, please revisit my **What Your Birthday Says About You** workbook on the **Aligned Advantage** welcome page.

Once you have this chartwheel rotated to place your Rising in the 1st House, draw in your natal Sun and Moon. This is how we'll determine your natal moon phase. During our meeting, we'll discuss the disposition of people born under each of the 8 moon phases! And, of course, this weaves in nicely with last month's work on 2ndary Progressions. Yay!

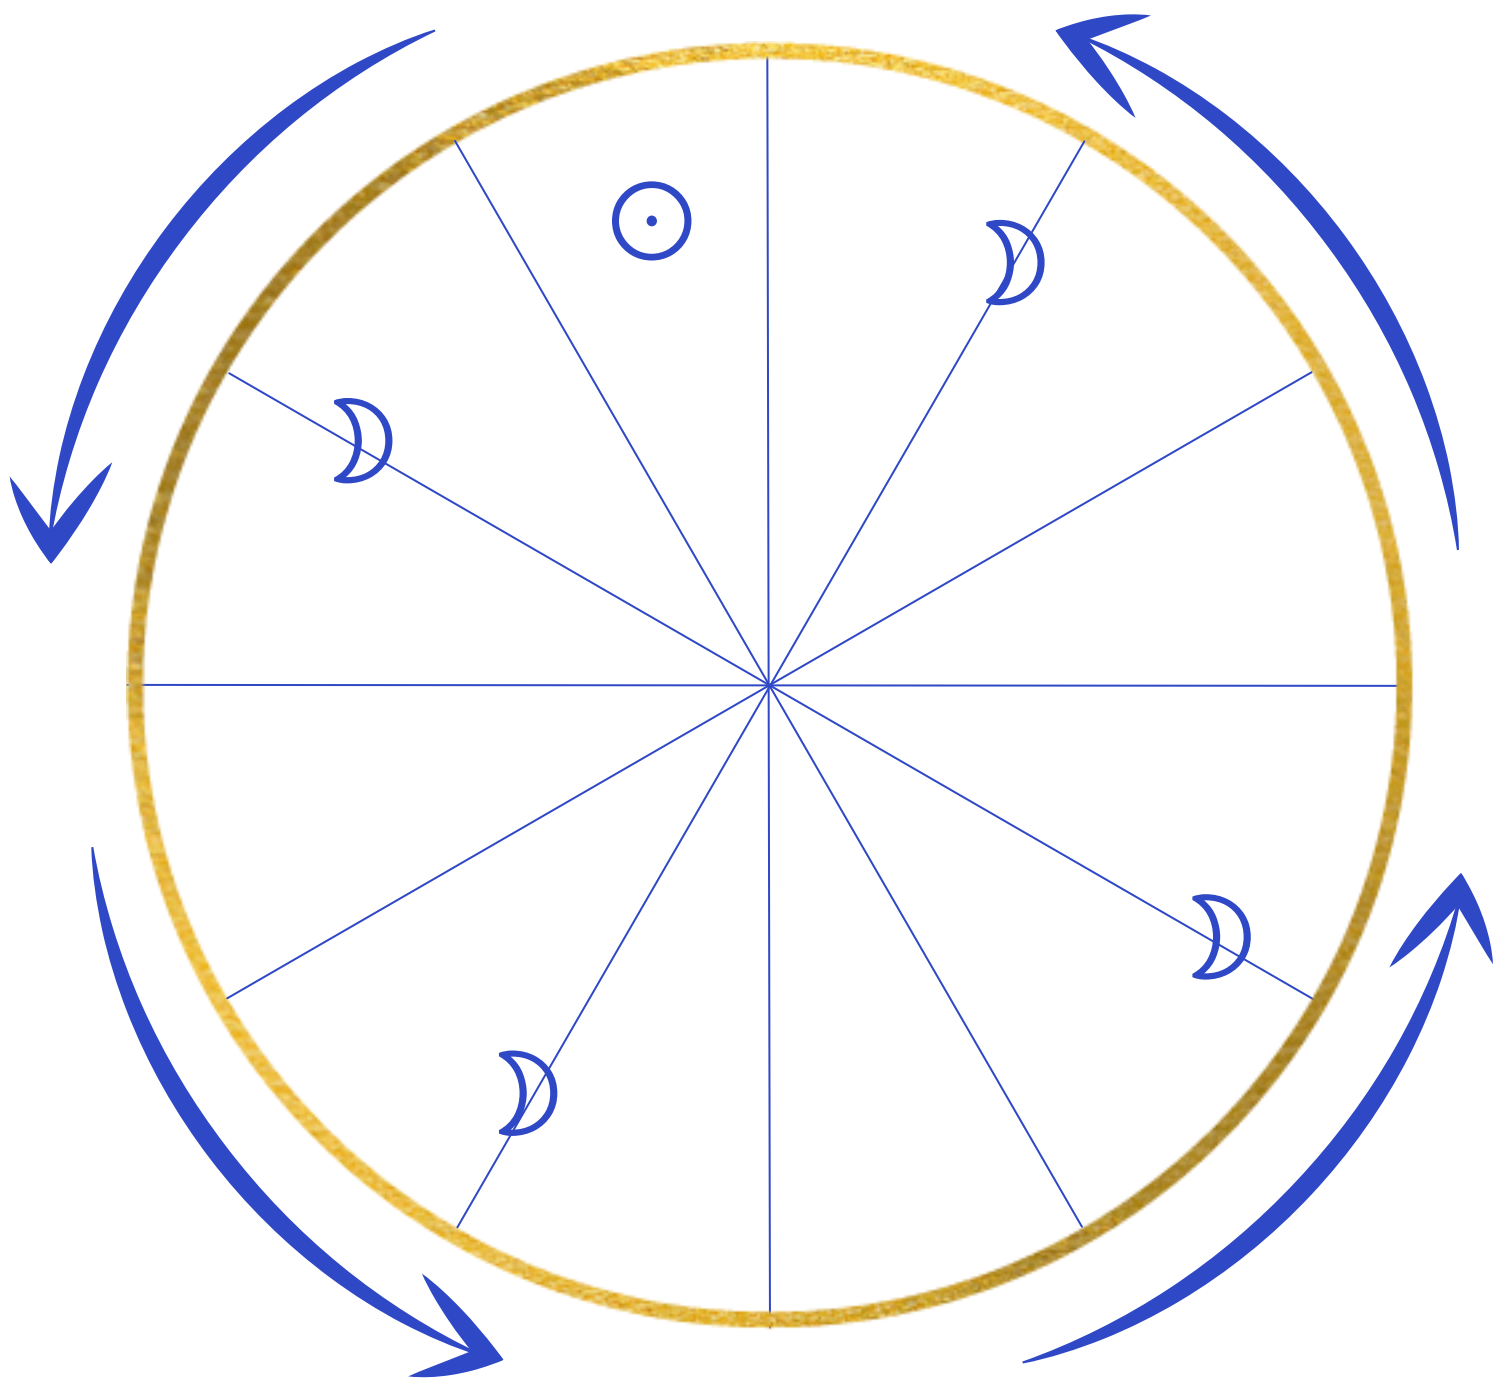

# Moon Phase Map: New, 1/4, Full, 3/4

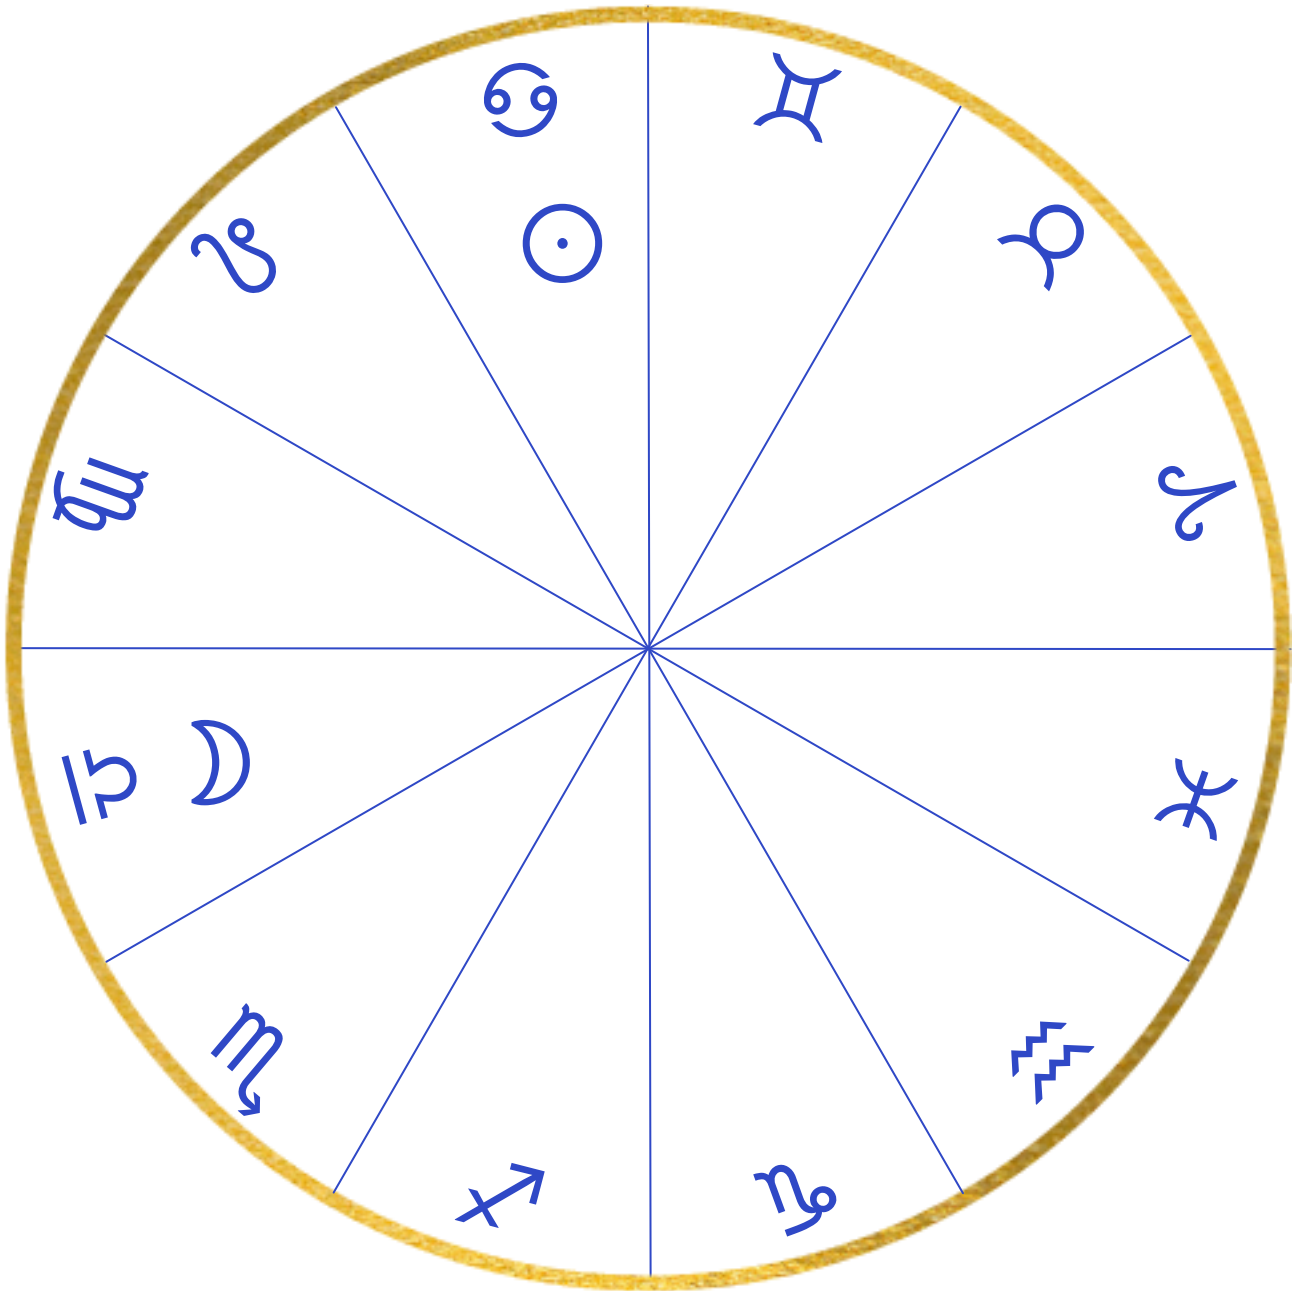

All 4 of these Moon phases will happen when the Moon is in the same Modality as the Sun!

Crescent, (Waxing) Gibbous,  
(Waning Gibbous) Disseminating,  
(Waning Crescent) Balsamic*

# Bon's Natal Moon Phase

Once we establish the natal moon phase under which we were born, we can do things like celebrate our lunar return by phase as well as by sign, every dang month! AND, when we use the timing technique of 2ndary Progressions, we can better understand the characteristics of the Progressed Moon Phase (which we'll feel for a few years) as well as the personalities of the signs our progressed moon happens to be in. Layering, layering, layering!

# Your Natal Moon

**LET'S USE THE POWER OF THE MOON TO MAGNETIZE YOUR GOALS!**

You were born during 1 of 8 phases of the Moon. Every time that exact phase of the Moon occurs throughout the year (12 or 13 times), you are most aligned with "how you best meet your moment," according to astrologer Tara Aal. We'll discuss **Chart Harmony** practices to help support your precious Moon during our Zoom.
