

What Your Birthday Says About You

WORKBOOK

Guided by Bonnie Gillespie, The Astrologer's Daughter

ASTROLOGERSDAUGHTER.COM

Hello

from The Astrologer's Daughter

Woo HOO! Let's DO this!

Hi! I'm Bonnie Gillespie, **The Astrologer's Daughter**. I am so freakin' excited to share this woo-woo goodness with you! When I learned astrology alongside my mother in the 1970s, I would draw the symbols as if they were little characters in a play. They all had roles and as the characters would make entrances and exists in my little production. I would voice each of them distinctly (and gleefully).

While this free series isn't *quite* as simplified and as animated as those little shows must've been, the enthusiasm with which I tackle all of this is still very much there. I hope you'll find joy in this tour through your natal chart as well!

This workbook goes along with the audio training here. I'll take you through the **12 houses**, the **12 signs** (and their **4 elements**, **3 modalities**, and **6 axes**), **12 of the planets** and **placements**, and then a little **numerology** (**9 personal years** and **9 birth numbers**). Here's a formula I want you to keep in mind as we dive in:

The planet is the WHAT, the sign is the HOW, and the house is the WHERE.

So, for example: "What I do is fight passionately (Mars), how I do that is with my words (Gemini), and where that shows up in my life is with my children (5th house)."

Using this formula, you can zoom in on any issue in your life, learning where some **Chart Harmony** may be the fix you need!

Not all my clients are this cute!

We'll kick things off with how to render and print out your own natal chart (for free), and then we'll get into the nitty-gritty!

Since up to 1400 astrological components change every 4 minutes, there's a lot of motion in our charts! So please take this at your own pace. Be as public or as private about sharing your chart as you wish (using **#TheAstrologersDaughter** if you'd like). Take dance breaks often. Hydrate. Let this new way of exploring your personality marinate.

So much of astrology grants permission to be the versions of ourselves we already feel tugged to be. I love the a-ha moments that come from this work.

If you crave being able to discuss all of this with me as we go deeper on this yumminess, regularly, please consider my **Aligned Advantage** membership, where we gather each month on Zoom to prep for the astrology and numerology ahead using my **Aligned Hustle Calendar!**

Okay... let's dig in!

USING THE FREE NATAL CHART FEATURE AT ASTRO.COM

If you already have your chart in Whole Sign House System format, skip ahead. Otherwise, visit **astro.com** and select the **Horoscopes** menu from the top left area. This will expand a multi-column menu. From here, choose **Extended Chart Selection** from the **Drawings, Calculations, Data** section.

USING THE FREE NATAL CHART FEATURE AT ASTRO.COM

From here, proceed as a **guest user** (it's fine to create an account if you'd like, but you don't have to). Once you click the words **click here to go to the data entry page** in the **guest user** section, you'll click through to AGREE to terms and then land on a form you'll fill out with your birth information so the site can render your free natal chart!

The top screenshot shows the 'Extended Chart Selection' page on astro.com. It features a yellow box for guest users with the text: '★ For guest users: To view this horoscope you need to enter birth data. Please [click here to go to the data entry page](#). The horoscope will be displayed subsequently.' A blue arrow points to this link. Below it is a section for registered users with a 'please log in' link.

The bottom screenshot shows the 'Birth Data Entry' form. It includes fields for first name, last name (optional), gender (radio buttons for female, male, event/other), birthday (month/year), hour (dropdown with 'min'), country (dropdown with 'The Whole World'), and birth town. A 'continue' button is at the bottom. A blue arrow points to the form's title.

You can see how I've filled out the form using my information: name, gender (ugh, it's dated in its gender options), birthday, hour and minute of birth, country of birth, and then as I fill in the birth town, the site provides a few options (including longitude and latitude) for me to select from. Once I've made the selection, it's time to render my chart!

The image displays two screenshots of the astro.com website's 'Birth Data Entry' form. The top screenshot shows the form with a dropdown menu for 'birth town' open, displaying a list of locations. The bottom screenshot shows the form with the 'birth town' field filled with 'East Point, GA (US) = Gk' and a 'continue' button highlighted.

HOW TO RENDER YOUR CHART

USING THE FREE NATAL CHART FEATURE AT ASTRO.COM

Now we're ready to shift from the default HOUSE system for astro.com to the one you'll be using for the **What Your Birthday Says About You** free training (**Whole Signs**). Before you click on the ever-so-tempting button that says "Click here to show the chart," expand the "Options for zodiac and houses" menu with a click and select the **Whole Signs** menu option!

HOW TO RENDER YOUR CHART

USING THE FREE NATAL CHART FEATURE AT ASTRO.COM

Once you've clicked on the "Click here to show the chart" button, you'll be seeing your Whole Sign birth chart (maybe for the first time). **Exciting!** There's a lot of data here, so don't get overwhelmed. When you click on the chart from here, a new tab will open with a printable chartwheel, your birth data, and tables with astrological glyphs and symbols.

The top screenshot shows the Astro.com website interface. At the top, there's a navigation bar with "ASTRO.COM", "Horoscopes", "Astro Shop", "All about Astrology", and the "ASTRO DIENST" logo. Below this, there's a search bar and a "Go!" button. The main content area shows a form for "Horoscope for: Bon" with a "Go!" button. Below the form, there's a section for "PDF Drawing (for subscribers)" and "PDF Additional tables". The birth data is displayed: Name: ♀ Bon, born on Sa., 11 July 1970, in East Point, GA (US), 84w26, 33n41. Time: 1:41 p.m., Univ. Time: 17:41, Sid. Time: 7:20:08. The chart method is "Natal Chart (Method: Web Style / Whole Signs)" and the Sun sign is Cancer, Ascendant: Libra. A partial natal chart is visible at the bottom.

The bottom screenshot shows the full natal chart. The birth data is repeated at the top. The natal chart is a circular diagram with zodiac signs and planetary positions. Below the chart, there's a table with planetary data:

☉ Sun	18	Can	59°32"
☾ Moon	18	Lib	1°41"
☿ Mercury	24	Can	39° 0"
♀ Venus	29	Leo	4°48"
♂ Mars	25	Can	68°48"

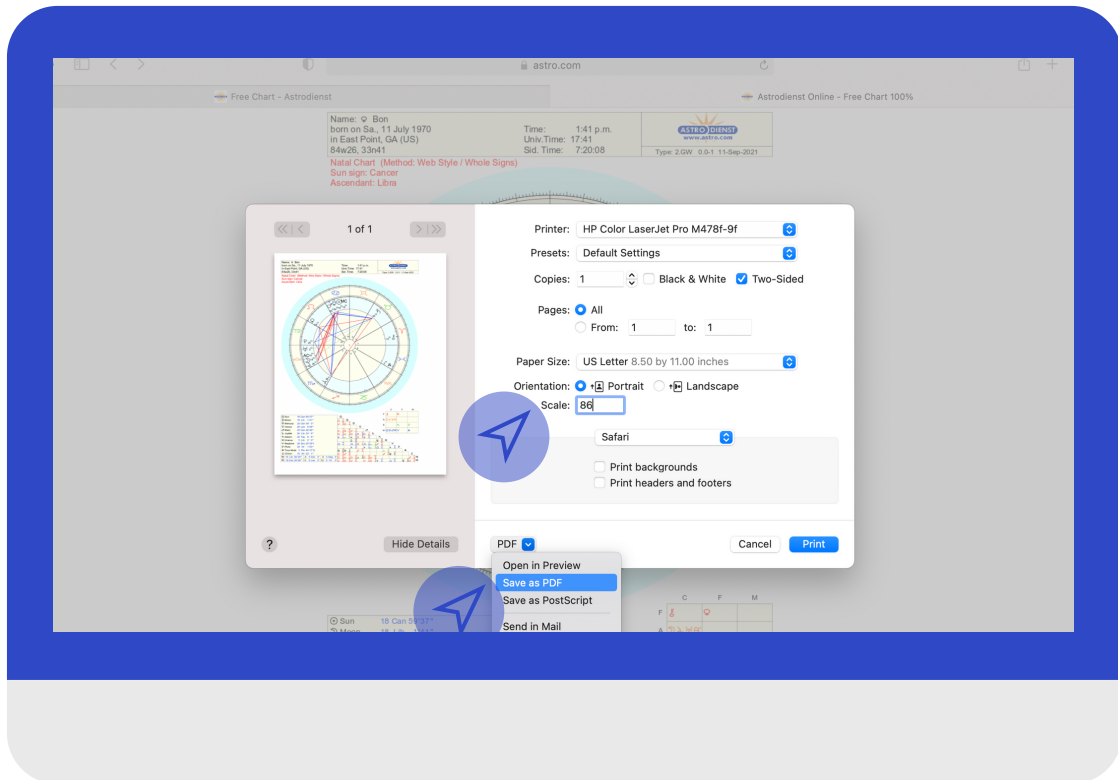

A text overlay with an arrow points to the table, stating: "You may not be able to see the whole 'staircase' table on the screen, but it's there if you scroll down."

If you'd like to save your chart (and not just print it), when you are prompted by your browser's PRINT command to send the chart to the printer, just choose to save the chart as a PDF (this is a drop-down menu in my print window; it may look a little different for you, but it'll be in this general area). Doing this should put a PDF of your chart somewhere on your computer to revisit later! (You'll notice I changed the print scale to 86%. This is so my chart fits on ONE page. You may have to do a similar adjustment.)

Now that your Whole Sign House System chart is in your hands, you're ready to dive in on this free What Your Birthday Says About You training! HOORAY!

First Impressions

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

I know, I know. This may all look like a lot of lines and shapes and abbreviations that may mean very little to you... yet. But for now, just jot down what you're seeing in your chartwheel and those tables... and what it all makes you curious about!

The Houses

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

Remember our formula for basic astrology: The planet is the **WHAT**, the sign is **HOW**, and the house is the **WHERE**. Example: A **Venus** in **Leo** in the **11th House** ([Bonnie Gillespie](#)) means all the loving and valuing and beautifying is done in a very grand and passionate and public way specifically in broader communities and in service of utopian, innovative, progressive visions for us all. Don't worry if that's something you're scratching your head about; it'll all make sense as you work your way through this free training! For now, just get to know some of the **WHERE** that's already in your chart! (**We all have all 12 houses!**)

1st HOUSE: Your personality, your body, the impression that you make live here (it's the house of your Rising sign AKA Ascendant).

2nd HOUSE: This is where we find your values, your desires, your belongings (AKA your "stuff"), and your earned income.

3rd HOUSE: Your closest friends, siblings, cousins, and networking activities can be found here, plus communication, social media, and short travel.

4th HOUSE: Your family of origin, home, your "unseen parent," family land, heritage, and ancestry are rooted here.

5th HOUSE: This is where you'll find your creative expression, joy, friskiness, risk-taking, gambling, drama, and pleasure in life. Your children live here too.

6th HOUSE: Daily practices, your health and fitness, acts of service, and the jobby-job work you do (not your purpose in life) are here. This includes your co-workers and employees. Pets hang out in this house as well.

7th HOUSE: This is where partnerships live (both business and romantic partnerships, always 1:1). This can include your agents... and your enemies!

8th HOUSE: Your money issues are here (usually other people's money, investments in you, or loans you take out and taxes you pay) as well as your shadow work, secrets, sexual intimacy, death/transformation, and legacy.

9th HOUSE: Your love for learning, higher education, traveling great distances, and exploring things like religion, publishing, astrology, and law are anchored here.

10th HOUSE: Your chart's most visible stage! This is your higher calling and how you're seen in the world, where your true north and your brand meet!.

11th HOUSE: This is your house of community, friends, tech, activism, idealistic view of the future, and innovative dreams for the greater good of the collective.

12th HOUSE: "The house of your undoing," this is where your (karmic, mental health) secrets, thoughts on loop, and confinements live. But also so much magic, like mysticism, spirituality, and intuition! Institutions (from hospitals to jails to retreat venues to rehab to systems we live by) hang out here too.

It's a House Party!

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

Remember our formula: "The planet is the **WHAT**, the sign is the **HOW**, and the house is the **WHERE**." If you have patterns that play out in your life in the same area (romance, your career, siblings, money, your children, etc.), it's time to get some **Chart Harmony** in the house!

The Signs

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

You certainly know "your sign" (this is the horoscope you may read from time to time). What you're talking about in that case is the sign the Sun was in when you were born. Of course, you *have* all 12 signs in your chart! Just look at the outside of the chartwheel. All 12 signs are players in your life's story *and* how you can invite in everything you've ever dreamed of! Yep, even in "empty" houses. NOTE: These GENERAL dates for Sun signs sometimes shift due to the 360° chartwheel vs. the 365-day calendar year (y'know, Leap Year and all that). Human time is so adorable. :) For now, just familiarize yourself with the various energetic signatures of these signs (the **HOW** part of our formula, remember?!?).

ARIES: March 21-April 19. The zodiac's puppy! Enthusiastic, excited, self-directed, ambitious, courageous, bold, pioneering, likely to act first and think later (maybe).

TAURUS: April 20-May 20. Slow and steady! Stubborn, practical, stable, loyal, determined, slow to anger. Loves things that feel great and that are built to last.

GEMINI: May 21-June 20. Up all night talking! Intellectual, expressive, adaptable, clever, versatile, chatty, musical, usually good with hands and always up for debates.

CANCER: June 21-July 22. Home is where the heart is! Sensitive, nurturing, creative, protective, emotional, intuitive, reserved, family-focused, strong.

LEO: July 23-August 22. Strut your stuff! Affectionate, generous, proud to lead, slow to change, loyal, creative, confident, charismatic, dramatic.

VIRGO: August 23-September 22. I have a list! Intelligent, analytical, cynical, discriminating, critical, detail-oriented, self-sacrificing healer.

LIBRA: September 23-October 22. Balance is motion! Diplomatic, artistic, beautiful, fair, indecisive, relationship-focused, opportunistic, charming.

SCORPIO: October 23-November 21. Intensely passionate! Secretive, sexy, calculating, resourceful, determined, willful. Learns your secrets, goes deep, and connects to your very soul.

SAGITTARIUS: November 22-December 21. Born to explore! Idealistic, philosophical, educated, world-traveler, confident, blunt, generous, enthusiastic, lucky, adaptable, expansive.

CAPRICORN: December 22-January 19. There's work to do! Ambitious, powerful, organized, structured, cautious, practical, economical, born to lead.

AQUARIUS: January 20-February 18. Let your freak flag fly! Rebellious, idealistic, cooperative, detached, altruistic, innovative, friendly, progressive.

PISCES: February 19-March 20. Pure magic! Sensitive, psychic, intuitive, artistic, mystical, musical, compassionate, empathetic, insecure, secretive, lives in other worlds and loses time.

Seeing Signs?

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

We are made up of so much more than just our Sun sign (obviously). As I guide you through all 12 signs of the zodiac, think about the patterns you might be seeing in your chart. Write down some of the things you may be more curious about now.

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

Each of the fun symbols you see on your chart has meaning. This page covers a bunch of 'em. NOTE: There are variations in some signs (like Capricorn) and planets (like Pluto) and there's no different meaning implied when any particular version is used. Think of it like cursive vs. block letters. Remember, the planets are the **WHAT** and the signs are the **HOW**!

While the staircase table for your chart showcases symbols that indicate the relationship between placements (specifically major aspects: conjunctions, squares, and oppositions; less-major aspects: sextiles and trines; and minor aspects: semi-sextiles and quincunxes), we won't go into any of that as a part of this free training. Of course, notice patterns! Stay curious about what you're seeing! And if you want to explore this deeper, join my woo membership!

Each sign has a **modality**; the disposition from which it does its work. For example, Capricorn is a Cardinal sign, so it does its Capricorn business from a POV of leadership. Consider modality to be a way to notice relationships between the signs in your chart!

CARDINAL: Aries, Cancer, Libra, Capricorn (the leaders)

FIXED: Taurus, Leo, Scorpio, Aquarius (the upholders)

MUTABLE: Gemini, Virgo, Sagittarius, Pisces (the shape-shifters)

Each sign also has an **element**; that's how it does its work. For example, Taurus is an Earth sign, and that means it does its Taurus business in a "put in the work" kind of way. This is another opportunity to check for common threads in how various signs relate!

FIRE: Aries, Leo, Sagittarius (passionate and magical)

EARTH: Taurus, Virgo, Capricorn (willing to put in the work)

AIR: Gemini, Libra, Aquarius (bubbling over with ideas)

WATER: Cancer, Scorpio, Pisces (intuitive and emotional)

The Planets & Placements

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

All righty... now it's time to dive in on the planets and placements of your chart. While there are all sorts of minor planets, fixed stars, and asteroids out there, for this free training series, our focus is on the 12 planets and placements (non-planet mathematical points) listed here. (Well... with a bonus 13th too.) Again, get familiar with these and remember we're dealing with the **WHAT** in the formula for navigating your chart!

THE SUN: This life-giving luminary is your ego, your sense of self, your essence, your spirit, your source of will, your vitality, your authority. It's your life-car's navigator!

THE MOON: Your emotional body is deeply tied to the Moon. Your feelings, instinct, and intuition come from the setpoint of your natal Moon *and* fluctuate with what the Moon does, day to day. This is your inner home; it's how you feel safe. It's also the backseat driver in that car of your life, making sure needs are met.

YOUR RISING: Also known as your **Ascendant (AC or ASC)**, this is your belief system and daily life. It's how you come across, your physical characteristics, and your personal style. This is the driver of your life's car and the ruling planet of your rising sign has a lot to do with how you show up in the world.

MERCURY: Ruler of communication, travel, personal technology, how you learn, what you believe, and how you speak about what you know... all packed in one shifty little prankster of a planet. Your reasoning and dexterity are tethered here.

VENUS: How you love, see beauty, find balance, and deal with money — yep, money mindset *and* love language — are all in one place! Your core values, relationships, harmony, charm, sensuality, and artistic talents... all shaped by Venus.

MARS: The warrior planet is all about your motivation, fire for fighting and... another F word. ;) Look here for your passion, physical energy, stamina, courage, temper, drive for achieving, and impulses.

JUPITER: This is how you get lucky! If the planets all go to Vegas, Jupiter is driving the party bus! Jupiter is all about expansion, gifts, and blessings in life, adding glitter to your vision, your faith, your philosophical setpoint, and your flair for doing the most! No apology for exclamation points where Jupiter's concerned!

SATURN: It's back to basics time. Saturn is "the dad planet" (and we all have daddy issues) because it's making sure you're doing what you came here to do. Saturn is a minimalist, all about contraction, limits, structure, focus, rules, and tenacity.

URANUS: Your rebellious innovation is here. If you're gonna think outside the box, Uranus will be how you do it, with a dash of independent eccentricity. Uranus asks: "Where am I not free?" and then creates a revolution in the name of freedom.

NEPTUNE: This is the planet of deception, mystery, magic, creativity, spirituality, illusion, theatre, and the supernatural. Check here for secrets, addictions, and help from beyond!

PLUTO: I call Pluto the TOWER card. If you know tarot, you get the picture. This is a powerful generational planet of transformation. Its sign represents what your age group came to transmute, kill off, or forever change in our world! NBD. ;)

YOUR MIDHEAVEN: Noted on your chart as **MC**, this is your ambition for your higher calling.

YOUR NORTH NODE: Your destiny. Your life's purpose. All the things beyond your perceived limits and practiced beliefs. As challenging as writing with your non-dominant hand. Do-able, but so uncomfortable to get used to that you may not!

Numerology: Personal Years

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

Even without someone's birthtime or birthplace, you'll be able to calculate what sort of year they're having and what their setpoint is for experiencing their world. Start calculating the birth number and personal year number for yourself and those closest to you (or even do it for famous people! There are always so many fascinating patterns to track there). We'll start with the 9-year cycle.

1 YEAR: New beginnings, assertive energy, planting seeds, setting the tone for the next 9 years.

2 YEAR: Receptive energy, "abort or knit booties" for the seeds planted last year, emotional, doubting.

3 YEAR: Manifestation based on how well those seeds were nurtured; creative celebration, social.

4 YEAR: Hard work, focus, drive, rolling up the sleeves and making stuff happen.

5 YEAR: Rebellion, play, reckless and free; a year of adventure and a hunger for freedom.

6 YEAR: Domestic year focused on house and home, family, your health, making needed repairs.

7 YEAR: Going inward, turning spiritual, isolating to connect more deeply, building courage.

8 YEAR: The butterfly emerges, a power year (yours or power used against you), a year of being seen.

9 YEAR: Time to end what needs not come into the next cycle; declutter, end relationships, prune, clarify, and reset.

Numerology: Birth Numbers

WHAT YOUR BIRTHDAY SAYS ABOUT YOU

Now we'll turn to your birth number, which you'll notice has significant alignment with the personal years on the last page. Begin to track patterns in your own life and get curious about those people in your life whose numerology you can calculate.

1 BIRTH NUMBER: Great at starting things (maybe not great at finishing 'em), assertive, eager, confident.

2 BIRTH NUMBER: Nurturing, possibly doubtful about braver things, emotional, possibly intuitive.

3 BIRTH NUMBER: Creative, social, connected to your community and network. Good at manifesting.

4 BIRTH NUMBER: Hard worker, diligent, focused, literal, pragmatic, an empiricist.

5 BIRTH NUMBER: Playful, fun-loving, confident life of the party, happy in the spotlight.

6 BIRTH NUMBER: Domestic, family/home focused, aligned with daily tasks more than the big picture.

7 BIRTH NUMBER: Spiritual, introverted, fascinated with psychology, philosophy, and deeper meaning.

8 BIRTH NUMBER: Bold, confident magnet for attention. Natural leader, powerfully in the public eye.

9 BIRTH NUMBER: Wise, detached (or overly-attached) to "stuff," calm, balanced.

It's All Adding Up

[illegible]

It's possible that you've gotten so fired up about all of this that you have a bunch of questions. That's amazing! And awesome! Here are some of the most common Qs.

Q: Okay, so we're using Whole Sign Houses for our charts now?

A: Yep, to keep it simple, we're working with your chart using the Whole Sign House System! Placidus may be the default house system in the site or app you use to render your chart, and that's certainly fine too! In using Whole Sign Houses, we're assuring the most straightforward way for you to SEE yourself in the stars. The Whole Sign House System makes this easy, because each house starts at the same place a new sign starts. Yay!

Q: I don't know my exact time of birth. Am I screwed?

A: Not at all! Ideally, you'll be able to find out what time you were born from your birth certificate or by checking with a member of your family who remembers some details about the event. Some folks have luck calling the hospital at which they were born to access those archived records. If these options don't work out for you, there is a process called rectification that some astrologers are able to do for a fee. This is a process of studying several significant events in your life while interviewing you to determine the most likely range of birth times. For now, work with what you have! If you're not able to get your birth time sorted out, you can still have a wonderful experience getting to know yourself better. You won't be sure of your RISING, which means the houses may all feel *off* for you, but you'll have the planets in their right signs, and that's plenty to get aligned for an exploration that serves you well. For the sake of rendering your own chart for this training, use sunrise for the city in which you were born.

Q: There's a tiny R next to one of the planets on my chartwheel. What does this mean?

A: That R indicates retrograde illusion (the varying orbit shapes and speeds of planets we're *not* living on making it appear as if they're moving backward from time to time as we all orbit the Sun). Any planet on your chartwheel with a tiny R next to it was in retrograde at the time of your birth. The fun part about this is that when that same planet goes retrograde throughout your life, you're actually less distressed by its effects than other folks may be. Overall, the WHAT of that planet will likely have your focus turned more inward in life. Also, your development in the area of that planet's WHAT may be later in life.

Q: Nearly half of my houses are totally empty on the chartwheel. What does this mean?

A: It actually means you're like most people. :) The typical experience is to have a few planets or placements clustering together in a "stellium" (clumping our lessons and gifts so they can serve one another and experience transits with similar timing) and then open spaces. Of course, even "empty" houses are in specific signs in your natal chart, so there's energy there! In fact, depending on what's directly opposite that house on the chartwheel, that "empty" energy could be exactly what you're meant to use to balance out all that activity on the other side of your chart. Cool, huh?

Final Thoughts...

I often hear that astrology is overwhelming. So many **signs** and **planets** and **houses** (Oh, my!) and that's before we even get into **transits** and **retrogrades** and **fixed stars** and **annual protections** and **secondary progressions** and **zodiacal releasing** and, and, and.

This is why I adore bringing my childhood love of astrological storytelling into the here and now. We can make meaning of so many nooks and crannies of our charts! But the whole point is for us to be empowered, to have sovereignty, to lean into what we may already be feeling is right, confident that it's exactly what our souls intended that we do!

While I believe in magic, I also love data. I love tracking patterns. And I especially love when I notice that data backs up something magical. The placebo effect is scientifically backed. Even when we know we're taking a placebo for a headache, the brain will send signals that relieve us from pain. So while some folks may roll their eyes at my adherence to planetary hours or about some of the rituals I swear by in order to have **Chart Harmony**, I know what works for me. Hopefully you're now feeling more confident around your woo-curious setpoint, too.

And when you get turned around? Just come back to this free training. Connect with the work you've put into this with me today, align with the energies you know are a part of the WHAT-HOW-WHERE formula, and breathe. You've got this!

THE ASTROLOGER'S DAUGHTER

Faced with no career and no college degree, my resourceful, suddenly-single mother Charlsie decided that the hobby she had picked up – to explore WHY she ended up having an unplanned late-in-life baby (me) and WHY her husband of 28 years bailed – might be more than just a hobby. She booked her first paid reading in 1977 and earned \$20. Twenty years later, the Oprah folks called to book her on the show's "remembering your spirit" segment. Charlsie's enoughness was low, so of course she said no.

As a kid growing up, I remember coming home from school, bullied, and instead of the usual, "Oh, honey, they're just jealous," my mother would say, "Oh, honey, you know your Venus is afflicted in Leo." I've spent my life very much aware of all the rhythms of planetary influence and certainly how the moon can make one day a brilliant get-shit-done day and then it switches into a sign that makes everything feel sloth-like.

Over the years, I've gotten less private about my woo-woo upbringing and my showbiz clients have started asking, "What does it mean, when you say such-and-such about how you decide it's the right time to do X or Y or Z?" and so I share a little bit here and there and, well, we've now reached a point where it's *such* a thing that I have creatives booking coaching sessions with me NOT to do the **Self-Management for Actors** work on which I've built my empire, but to have their charts done! Turns out I'm really good at it.

I promise not to say no when Oprah calls.
